INTRODUCTION

CREATIVE THINKING . CLEAR COMMUNICATION . CONNECTED SOLUTIONS.

Pixel Maven Creatives is the independent creative practice of **FAMOUS FUNSO IBIDAPO**, focused on visual design and digital solutions that help businesses, organisations and event teams communicate with clarity and consistency.

The work goes beyond making individual graphics look attractive. It is about understanding what a client wants to communicate, identifying what the audience needs to notice or understand, and translating that into visuals and digital experiences that serve a clear purpose.

With visual design as the primary focus and web development as a complementary capability, Pixel Maven Creatives helps clients bring connected parts of a project together; from the first publicity graphic to a wider event identity or a functional digital experience.

IBIDAPO
B.ENG. (First Class Honours)

FOUNDER AND CREATIVE LEAD | VISUAL DESIGNER & WEB DEVELOPER

I am a visual designer and web developer with a background in Mechatronics Engineering. I graduated with First Class honours from the Federal University Oye-Ekiti. My technical education has strengthened the way I approach creative work. I enjoy understanding how things work, solving problems, and building solutions with purpose.

My design journey has been largely self-directed. I have learned by practising, recreating designs to understand how they work, taking part in design challenges, and creating visuals for church and community activities. Over time, that practice developed into freelance work and a clearer commitment to helping people communicate through design.

I also have a strong interest in music and play instruments including trumpet, drums and violin. Music has helped shape my appreciation for rhythm, structure, discipline and the way separate elements can work together to create a complete experience.

At Pixel Maven Creatives, clients work directly with me; the person thinking through the brief and responsible for delivering the creative work.

THE JOURNEY

In 2023, seeing a design that I wanted to understand and recreate sparked my interest. I discovered PixelLab and began approaching design more intentionally on 15 January 2023. I practised by studying layouts, recreating visual approaches, experimenting with tools and design. I started on a phone and later moved to working on a computer.

Along the way, I developed experience with tools such as CorelDRAW, Adobe Photoshop, Illustrator and InDesign, Affinity by Canva and PixelLab. I also began web development in 2022, later strengthening my practical experience through a six-month web development internship at MCKODEV Tech Lab from March to September 2025.

This journey continues to shape my approach: stay curious, keep learning, take feedback seriously and treat every project as an opportunity to make the next solution better.

ABOUT US

WHAT THE NAME MEANS

SMALL PIECES. ONE COMPLETE PICTURE.
The name Pixel Maven Creatives reflects the way I think about creative work. A Pixel is a small unit that contributes to a complete image. In a similar way, a client may begin with scattered thoughts, references, requirements and ideas. My role is to bring those pieces together into a clear visual direction and a coherent final result.

A Maven is someone with knowledge and strong interest in a particular field. The word represents the commitment to keep developing skill, understanding and judgement; not to claim that learning is finished, but to take the craft seriously.
Together, Pixel Maven expresses the aim of turning individual ideas into purposeful, well-connected creative solutions.

CORE VALUES

PURPOSEFUL CREATIVITY: Every design should serve a clear purpose.

CONSISTENCY: Create a connected visual identity across every touchpoint.

QUALITY: Pay attention to detail, clarity, and execution.

PROBLEM SOLVING: Understand the challenge before developing the solution.

CONTINUOUS GROWTH: Keep learning, improving, and refining the craft.

BRAND STATEMENT

VISION

To build a trusted creative practice known for helping brands and events communicate clearly and remain recognisable through thoughtful, consistent visual design and useful digital experiences.

MISSION

To make creative and digital work easier for businesses, organisations and event organisers by understanding their goals, developing purposeful visuals, and connecting related design and web needs through a clear, collaborative process.

DESIGN PHILOSOPHY

DESIGN SHOULD DO MORE THAN LOOK GOOD.

A design can be visually attractive and still fail if people cannot understand its message. For me, good design brings together attention, clarity and purpose. It should help the intended audience notice the right thing, understand the message and know what to do next.

- Before developing a concept, I consider three practical questions:
- Who is this design meant for?
- What should the audience notice or understand?
- What should they do, feel or remember after seeing it?

These questions guide decisions about hierarchy, typography, colour, imagery, layout and the relationship between each asset. The goal is not decoration for its own sake; it is visual communication that supports the client's objective.

CORE SERVICES

Visual design

The primary focus of Pixel Maven Creatives is visual design for communication, promotion and identity.

- Event visual design and event identity systems.
- Brand visual design and supporting brand assets.
- Promotional and advertising graphics.
- Social media campaign graphics.
- Publications, booklets, programmes, company pro¦les and editorial layouts.
- Banners, backdrops, certi¦cates, invitations and other event collateral.
- Celebration designs for birthdays, weddings and other personal occasions.

DIGITAL SOLUTIONS

The primary focus of Pixel Maven Creatives is visual design for communication, promotion and identity.

- Event visual design and event identity systems.

DESIGN TOOLS

Adobe Photoshop • Adobe Illustrator • Adobe InDesign • CorelDRAW • Affinity by Canva • PixelLab

WEB TECHNOLOGIES

HTML5 • CSS • JavaScript • AJAX • PHP • Visual Studio Code

SELECTED PROJECTS

THE SHIFT

EVENT BRAND & DIGITAL SYSTEM

The Shift was developed as a connected event identity and digital experience around the theme of transformation and productivity. The work combined visual design with full-stack development to support the event beyond publicity alone.

Project elements included event branding and publicity assets, a live website, ticketing with QR-code generation, seat assignment, a personalised display picture generator, speaker and resource pages. Flyers including Official Flyer, Anticipate, Countdown, Speaker's Pro¦le, D-Day and Thank you Flyer.

Why it matters: the project demonstrates how visual identity and digital functionality can work together to support an event from awareness through attendance and follow-up.

NAMTES
ACADEMIC SEMINAR

EVENT VISUAL DESIGN & PERSONALISED DP GENERATOR

Theme: “THE SMART STUDENT BLUEPRINT: From Classroom to Career.” The project needed a professional online presence, clear event information and a publicity system that could build awareness and anticipation.

Deliverables included a responsive landing page: personalised display-picture generator and publicity assets such as the official flyer, unveiling and countdown graphics, certificate, speaker materials and attendee-focused visuals.

Why it matters: The work connects an event’s message, publicity and online information in a coherent presentation.

EKSBC 2026
CAMP & COMPETITIONS

EVENT VISUAL DESIGN & DIGITAL SYSTEM

The annual camp and competitions of the Boys’ Brigade Nigeria, Ekiti State Battalion Council, brings boys together for training, healthy competitions, fellowship, and personal development.

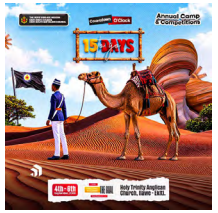

For this project, I developed a cohesive visual communication package and a dedicated event website to support the camp’s publicity and registration process.

Deliverables include: O¦icial event ¦yer, Countdown designs, DP Flyer, Event website, Partcipant ID card e.t.c.

The Project combined event-focused visual design with web development to create a consistent experience across the event’s promotional materials and digital platform.

TADE COLLECTIVE

FASHION CAMPAIGN VISUAL DESIGN

Tade Collective is a fashion brand specializing in quality clothing for men and women, with a strong focus on menswear. For its December fashion campaign, I designed a series of promotional visuals to showcase its clothing collections, highlight curated fashion packages, and support its seasonal marketing efforts.

The project included a campaign key visual, product promotional graphics, and package-specific designs highlighting selected fashion edits. The visual direction focused on presenting the brand's o erings clearly while maintaining a consistent, premium fashion appeasl across its promotional materials.

The overall visual direction focused on creating a clean, cohesive, and premium fashion appeal across the campaign materials ensuring that each design served its purpose while maintaining consistency with the brand's presentation.

WHAT CLIENTS CAN EXPECT

- Direct communication with the creative professional responsible for the work.
- A process that begins with understanding the brief, not jumping straight into decoration.
- Attention to clarity, hierarchy and consistency.
- Visual design supported by digital capability where relevant.
- A willingness to research, learn, refine and solve the problem at hand.
- Responsible communication around scope, feedback, timing and delivery.

CONTACT & NEXT STEP

HAVE A PROJECT IN MIND? LET'S BRING THE PIECES TOGETHER.

Whether you need a single design, a connected event publicity system, a brand's visual materials or a website that supports your communication, start with a conversation about the goal and the audience.
